Policy In Korea Is Defended By Gov. Stevenson

He Says Crossing Of 38th Parallel Tested Freedom

Governor Hits Change Of Attitude Towards War In Radio-TV Talk

SPRINGFIELD, Ill. (AP) — Gov. Adlai E. Stevenson, defending the administration's actions in Korea, declared last night that when the Communists crossed the 38th Parallel "that was the testing point for freedom throughout the world."

The Democratic presidential nominee asserted in a nation-wide television and radio broadcast that when the Reds were stopped in Korea the action "was received with enthusiastic shouts of approval by the overwhelming majority of the American people, and even by the Republican leadership."

But now, he added, the Republicans "attempt to make you believe that it was almost an act of treason."

"But what do you think they would be saying now if we had not stopped the enemy in Korea, if Japan was threatened and if East Asia was falling bit by bit to the enemy?" he asked. "Would they not now be saying that Harry Truman and Joseph Stalin were boyhood friends in Outer Mongolia?"

Raps Republicans

He said that "the Republican leadership is now telling us that 'the danger to this nation is from within, not from without. The danger lies not in Moscow but in Washington. Your enemy is not Joseph Stalin, but Harry Truman, or even possibly Adlai Stevenson.'"

This country, he declared, "must play the principal part in saving ourselves, our friends and our civilization" from "this monster tyranny" of communism.

"How long can we keep on fighting in Korea, paying high taxes, helping others to help ourselves?" he asked.

"There is only one answer: We can keep it up as long as we have to, and we will."

He said his mail indicated the people are troubled most by these four questions:

"Korea, how serious is the Communist danger in this country, is our prosperity in danger, and how can we get the highest integrity and dignity in government?"

Taking up these issues, he said: "No approach to the problem of corruption in government is good enough if it ignores the deeper problem of corruption in men."

"We do not say that a bank is corrupt because a cashier embezzles."

Two Youths Hurt In Highway Mishap

Two persons were slightly injured and one was arrested in the single traffic mishap investigated by State Highway Patrolmen Monday.

Donald Kyser, 19, of Columbiana, lost control of his car at 8:15 p.m. as he was traveling north on Route 62, a half-mile north of Salem, causing it to leave the road and strike a tree and a telephone pole.

Kyser sustained lacerations of the right eye and chin and contusions of the left leg, and a passenger in the car, Jack Hough, 16, of Columbiana, received lacerations of the chin. The youths were treated at the Salem City Hospital.

Patrolmen cited Kyser for reckless operation.

The condition of Mrs. Fay Robinson, 56, of 152 N. Lincoln Ave., injured in a traffic accident Saturday night at the intersection of Route 18 and Route 534, was reported "fairly good" today at the Central Clinic.

She sustained a possible concussion and a possible fracture of the pelvis. Patrolmen said Mrs. Robinson was riding in a car driven by her husband, Harry, when the car collided with a truck operated by Robert Wallace of Norwalk.

NURSES NEW CAREER — Christine Palmer, who has been a registered nurse at Doctors Hospital in New York City for the past five years, has just made her operatic debut with the New York City Opera Co. She's pictured rehearsing the part of Musette, the coquette in Puccini's "La Boheme."

President Flays Gen. Eisenhower Declares "Blunders" Aided Red Aggression

ABOARD TRUMAN TRAIN — President Truman accused Gen. Dwight D. Eisenhower today of having endangered the country as commanding general in Europe by grave "blunders" which left America unaware of Russia's threat to world peace.

He said Eisenhower's advice that he saw no reason why Russia and the United States would not remain "the closest possible friends" carried "great weight" and "did a great deal of harm."

If Eisenhower had given "Better advice in 1945," Truman continued, "we wouldn't have had so much trouble, in wading up the country to the danger of Communist imperialism in 1946 and 1947 and 1948."

Launches Bitter Attack

Truman chose a whistle stop speech at Havre, Mont., to launch the latest of increasingly bitter attacks on the Republican presidential nominee in reply to Eisenhower's own charges of blunders by the Truman administration in the field of foreign policy.

The President, speaking from the rear platform of his campaign train special voiced praise of Rep. Mike Mansfield, Democratic candidate for the Senate against Sen. Ecton (R-Mont) and Democratic presidential candidate Adlai Stevenson for having known "that communism was dangerous and that we had to take measures to stop it."

Truman said Eisenhower didn't have such "wisdom and foresight."

"After the war, while he was still commanding general of our forces in Europe," the President

Soft Coal Bosses Meet To Weigh Contract Terms

Must Decide Whether To Face Threatened Strike Or Sign Pact

WASHINGTON (AP) — Dixie's soft coal operators meet today to decide whether to face a certain strike tomorrow or bow to contract terms laid down by John L. Lewis.

As has been the case on several past occasions the Southern owners were up against an accomplished fact: Lewis had a fat contract with the rest of the industry already tucked away in his pocket.

So the 29-member Board of Directors of the Southern Coal Producers Association convene with a choice of a strike or accepting the same terms—a \$1.90 a day pay boost and a 10-cent-a-ton royalty increase.

Lewis, 72-year old president of the United Mine Workers, signed the new one-year agreement late yesterday with Harry Moses, representing Northern bituminous operators. Western mines had agreed in advance to take whatever Moses negotiated.

The new contract terms shove the miners' basic daily wage up to \$18.25 and the royalty to 40 cents a ton. Estimated to yield about 180 million dollars a year under the increased rate, the royalty goes to the union's welfare fund to pay for miners' pensions and other benefits.

Even if the Southern owners avoid a strike tomorrow by accepting the same terms, an industry-wide walkout could develop in mid-October if the government's Wage Stabilization Board hasn't approved the wage increases by then.

Area Farms Need Rain, Observer Avers

Below-normal temperatures and above normal rainfall in October is forecast by District U.S. Cooperative Weather Observer L. H. Copeland.

In reviewing weather conditions of September, Copeland pointed out today that the first killing frost should occur between now and Oct. 10.

Farmers are making progress with their winter wheat, but pastures are short because of insufficient rain and livestock is being fed extra rations. Good soaking rains are needed, the observer points out.

September's average temperature was 63.1 which was one degree higher than the corresponding month last year. The mercury touched 96 degrees Sept. 12 but fell to 31 degrees Sept. 27. Copeland's records show. Rainfall this month totaled 3.28 inches.

DRAMATIC RESCUE FROM POWER WIRES—Firemen cluster on a high tension transmission tower in Elmhurst, Queens County, N. Y., as 13-year-old Joseph Van Rosk is carried down on the shoulders of one of his rescuers. The boy was seriously burned when his body came into contact with 11,000 volts of electricity from the Long Island Rail Road power station. Joseph and three pals climbed the 60-foot high tower because "I always wanted to climb that high," Joseph whispered. His condition is "very poor." The other three boys escaped injury.

General Eisenhower Begins Speeches On Communism Issue

NEW YORK (AP) — Gen. Dwight D. Eisenhower swings the political spotlight on the Communism issue today on the basis of Gen. Walter Bedell Smith's assumption that the Reds have penetrated every U. S. security agency.

Before a plane takeoff for Columbia, S. C., the Republican presidential nominee worked on a speech aimed at throwing the Democrats on the defensive on the

Communist question.

For his text, the general took the testimony of Smith, an old comrade in arms, in Washington yesterday that Smith assumes Communists have infiltrated even the Central Intelligence Agency, which he heads.

Uses Smith Testimony

Testifying on a deposition in the two-million-dollar libel suit of Sen. Joseph R. McCarthy (R-Wis.) against Sen. William Benton (D-Conn.), Smith said he believed the Communists were "so adroit and adept they have infiltrated every security agency of the government."

He said he had not found any in the CIA, and would have rooted them out if he had, but believes there are some operating, possibly even on his own staff.

Arthur Summerfield, Republican national chairman, said Smith's statement demonstrated that the "national safety has been endangered" by what he called "looseness" in Washington security measures.

Will Speak Today

Eisenhower planned to develop this Republican reaction in his Columbia speech late today.

The Democratic presidential nominee, Gov. Adlai E. Stevenson of Illinois, has needed Eisenhower subtly to make public a statement of his financial affairs—an accounting that James A. Hagerty, the general's press representative, said would be given "later on" in the campaign.

The Eisenhower camp, pushed into the defensive over the week end by Stevenson's action in barring his income tax returns for the last 10 years, greeted the Smith testimony as a major campaign break.

Eisenhower's advisers feel that the Democrats are particularly vulnerable on the Communism issue.

In an effort to appeal to the women's vote on this subject, the Republican National Committee arranged to have former Rep. Clare Boothe Luce of Connecticut speak on it on a national radio-television broadcast tonight.

The development gave Eisenhower a boost.

Commissioners were given a copy of a standard resolution for continuing the controls about a week ago by an official of the Ohio Rent Advisory Board. Commissioner Galen Greenish said no one appeared before the group either in favor or opposed to the controls.

Red Infiltration Of U. S. Secret Agencies Is Told

Chinese Reds Seize Hill On Central Front

Communists Maintain Heavy Pressure On Sector For Third Day

SEOUL, Korea (AP)—Chinese Reds seized another hill on Korea's Central Front today as the Communists maintained heavy pressure on the sector for the third straight day.

The hill, due east of Kumsong, was the third captured by the Reds since they launched a series of heavy attacks on the East-Central Front Sunday.

Savage fighting also flared on the Western Front. U. N. infantrymen slugged their way to the top of Big Nori but lost the high ground to counter-attacking Chinese in pre-dawn darkness.

Greek troops were driven from the peak Sunday when U. N. planes accidentally bombed them during a Chinese attack.

The assault on Big Nori got underway at 1:30 a.m. today after a short but concentrated Allied artillery barrage. Thirty minutes later U. N. troops were at the crest, battling hand-to-hand with the Chinese.

The Reds withdrew. But 45 minutes later the Chinese re-grouped, mounted three separate counter-attacks and recaptured the crest.

The rest of the Front was relatively quiet.

In Tokyo the Navy announced eight men were injured when Communist shore guns hit the American destroyer Cunningham off Korea's Northeast Coast Sept. 19. The Navy said three men were hospitalized.

Woman Admits Taking Funds, Asks Probation

LISBON—A Wellsville woman entered a plea of guilty of embezzling \$2,330 from an East Liverpool store while employed as a bookkeeper and requested probation when arraigned Monday before Common Pleas Judge Joel H. Sharp.

Miss Elaine Akers, 26, was indicted by the September Grand Jury on a secret indictment on the charge while she was a bookkeeper for the Moskins Credit Clothing Co. She is being held under \$1,500 bond.

She was one of the two out of 12 who entered guilty pleas.

Among the 12 pleading innocent was Tommie L. Wingate, 44, of Canfield. He was indicted on charges of selling securities without a license to five persons and sale of unregistered securities.

Wingate, who professed to be a stock broker, was assigned a court-appointed counsel after he told Judge Sharp one attorney backed out of the case and another failed to appear for arraignment.

Wingate is being held under \$2,500 bond on each charge.

Also pleading not guilty Monday afternoon were Russell Bagley of Salem, robbery of a Salem service station, and Howard Butcher, larceny by trick while a magazine salesman in East Palestine.

Most Ohio Cities Keep Rent Curbs

Controls In Others To Die At Midnight

COLUMBUS, O. (AP) — Most of Ohio's large cities will keep federal rent controls until next April 30.

But rent controls in scores of Ohio cities will be a thing of the past after midnight tonight.

Rent controls expire at midnight unless extended by city councils or county commissions.

Rent controls will remain at Cleveland, Columbus, Dayton, Cincinnati and Youngstown, among large Ohio cities.

They also were extended at East Liverpool, East Cleveland, Zanesville, Newark, Washington Court House, Chillicothe, Jefferson County, Portsmouth, Sandusky, Hamilton and Oakwood City.

Portsmouth and neighboring New Boston certified their communities as critical defense housing areas. But because the federal government did not officially notify Portsmouth, council extended controls Monday night and recommended landlords be allowed to raise their rents.

Scores of Ohio towns allowed rent controls to expire. They included Akron, Toledo, Canton, Springfield, Salem, Lisbon, Alliance, Middletown, Oxford, Marietta, Lorain, Lima, Euclid, Lakewood, Cleveland Heights, Parma, Shaker Heights and Barberton.

Cleveland council asked a 10 to 15 per cent boost in rents, and Hamilton backed a 10 per cent increase, while keeping controls.

Columbiana and East Palestine may act tonight on the rent control question. Massillon ended controls last year.

Parts of Jackson, Pike, Ross and Scioto Counties, where thousands of incoming workers will build and operate a billion dollar atomic energy plant, get rent controls automatically.

Hearing Brings Out Statement By Top Official

Gen. Bedell Smith, Intelligence Head, Says CIA Invaded

WASHINGTON (AP)—The head of America's super-secret intelligence service says he believes Communists have infiltrated every U. S. security organization, including his own Central Intelligence Agency.

At the same time Gen. Walter Bedell Smith implied yesterday this might be working both ways when he added:

"We have to assume that our enemies are as clever as we are and that they will succeed from time to time."

Smith said that to his knowledge no Communists ever have been actually found in CIA, that he does not know the identity of any there—and he said he would get rid of them if he did—but he added:

"In our meetings we keep telling each other that somewhere along the line we must be penetrated so we try to keep our mouths shut and watch our step...."

Says Reds Adroit

"I believe they are so adroit and adept they have infiltrated every security agency of the government."

Gen. Smith's comments came while he was testifying at a deposition hearing in Sen. Joseph R. McCarthy's two million dollar libel-slander suit against Sen. William Benton.

There was swift reaction from the Republican National Committee. It announced a nation-wide radio-television broadcast tonight centering around the Communists in government issue.

GOP National Chairman Arthur E. Summerfield said Mrs. Clare Boothe Luce, former Republican congresswoman from Connecticut, will speak over a network of 65 TV and 189 radio stations.

After the deposition hearing ended, Gen. Smith first asked that all his remarks be kept off the record. When told they already had been made public, he issued a statement which said in part:

"Any intelligence agency that did not act on the assumption that it had been penetrated somewhere along the line from charwomen to its executive level would be criminally negligent and we would be criminally negligent if we did not act on that assumption."

"This is, of course, no reflection on the loyalty of the overwhelming number of persons employed in our security agencies."

"That is why we take so many precautions to guard against penetration at every point...."

TB Tests Given 699 Rural Children

LISBON—Dr. Robert Dunlap, Columbiana County health commissioner, reported a total of 699 kindergarten and first grade youngsters in the rural schools had tuberculin patches placed on their arms Monday by county health nurses.

The small patch of adhesive will be removed Wednesday by teachers, and county health nurses will read the tests Friday.

Nurses will put patches on youngsters in schools at Lisbon, Leetonia, Washingtonville and East Palestine next Monday. If any positive reaction is found from the tests, both the youngster and parents will be advised to have X-rays taken at the county health department at the courthouse.

Margaret And Harry Hottest Act In Road Show Business

ABOARD TRUMAN TRAIN — Maybe you approve of it, or maybe you don't. But this Harry and Margaret team, smiles and snappy patter, is the hottest father and daughter act in the road show business.

They've got it perfected now, with four years of rust scraped off, as President Truman's coast-to-coast tour goes into its third day. And the funny part is that Truman and his television star daughter seem to enjoy it as much as the customers do.

Here's what happens at a typical whistle stop in North Dakota. The 16-car train grinds to a stop. Secret Service men, local police, maybe some National Guard volunteers hold the crowds back—all but the local Democratic promoters, visiting Indian chiefs, or others who can expect a presidential handshake.

Formalities are quick. Lawyer so-and-so, who's running for Congress, introduced congressmen in a such-and-such, who's running for the Senate. And the congressman says simply: "Ladies and gentlemen, the President of the United States."

Then through a blue velvet curtain draped across the rear of his private car steps—or bounces, rather—the familiar white-haired figure with the hearty laugh and the big axe to grind for Adlai Stevenson. The crowd applauds all ways.

Truman speaks from notes, mostly, though sometimes he disregards them and launches into a free-wheeling, hand-waving, jaw-thrust tirade against the Republicans that brings cackles of appreciation from his hearers. And the time-tested cries:

"Pour it on, Harry."

"Give 'em hell, Harry."

He does, but not for long. These are short speeches, seldom more than five minutes. Before his audience has a chance to fidget, Truman folds his big gray notebook, waves goodbye and then—

He has an after thought.

Sometimes it's an invitation from the crowd that seems to remind him—a call of "Where's Margaret?"

Then Truman acts as surprised and pleased as if he'd just discovered his daughter was along.

"Come out, baby, they're asking for you," he murmurs through the curtain.

And Margaret comes out—as bouncy as her dad, with a shucks-it's-only-me smile and a wave that still manages to look a little shy.

Now the applause really rings out. Margaret gets at least as big a hand as the President.

Ship's Crew Donates Money To Burned Boy

LONG BEACH, Calif. — The crew of the heavy cruiser Bremerton has given a check for \$9,450 to a 9-year-old boy from Bremerton, Wash., who was burned seriously last May while refueling his toy locomotive.

The big ship pulled into the harbor here after nearly six months of Korean action. The fund was raised on ship in appreciation of the city's efforts in the purchase of war bonds during World War II for the ship's construction.

The crew asked the Bremerton Sun to select the city's most worthy recipient. Jimmy Weers, son of a news vendor, was chosen. The money will help defray the cost of skin grafting.

U. S. Air Base Runways In France To Be Fixed

PARIS (AP)—French officials say that repairs will be made on schedule, or with "very slight" delays, to defective runways on three air bases in France assigned to the U. S. Air Force.

American officials said Saturday that U. S. jet planes had been unable to use the fields because the runways were soft, crumbling or badly cracked. The fields are at Chaumont and Toul-Rosiere in Eastern France, and at Laon-Couvron in Northeast France.

A communique from NATO's supreme headquarters near here said responsibility for NATO airfields rests with the nation in which the field is located.

PAUL STANLEY helps his father, H. O. Stanley, take inventory of some grocery items at the Damascus general store.

Stanley's Store Has Served Damascus For Forty Years

H. O. Stanley, owner of the general store in Damascus, on Friday will observe his 40th anniversary as proprietor of the business establishment which has become almost an institution in that small neighboring community.

"Open house" will be observed from 7 to 10 p.m. on that day in the store and in the Odd Fellows quarters above it. A program featuring the showing of movies depicting the period during which Mr. Stanley first became associated with the business has been planned.

THE STORE was old in its service to Damascus residents long before Mr. Stanley "opened his first barrel of crackers."

The original owner was H. J. Windle, for whom Mr. Stanley worked during portions of 1911 and 1912. In April of 1912 the establishment was sold to T. R. Whinery who resold it to Mr. Stanley before the year was over.

When Mr. Stanley took possession, equipment consisted of a 500-pound platform scale, computing scale, candy scale, money drawer and a wooden account file. Total value of the equipment was \$105.

The stock consisted of staple groceries, dry goods, hardware, barbed wire and other fence materials, farm equipment and other odds and ends. The establishment was gas-lighted, with a Cannon Ball coal stove providing heat. Store hours were from 7 a.m. to 9 p.m. six days a week. Mr. Stanley had one employee.

Merchandise for the establishment was hauled by wagon and horses over dirt roads from the Pennsylvania Railroad freight depot at adjacent Garfield.

THE ATMOSPHERE in the store corresponded to that imparted by artists' reproductions of similar establishments which were as common throughout the country then as gasoline stations are today.

Intermingled smells of leather, coffee, kerosene, tools and dry goods permeated the air. Cracker, pickle and sugar barrels stood invitingly open; assorted candy jars tempted the youngsters.

In the winter time the "boys" used to drop in, gather around the glowing stove, and "run the government at Washington" as they watched the perennial checker game, Mr. Stanley relates.

Stanley's Market, today is a far cry from the original structure. The establishment has been remodeled four times since Mr. Stanley bought it. In 1937 a fresh meat department was added and in 1943 the store was converted along self-service lines. One section of the interior houses the community's postoffice (Mr. Stanley was appointed postmaster in 1914).

At the present time Mr. Stanley leaves the operation of his business to his son, Paul, but he still maintains an active interest in the "store." There are four employees.

Running the store has been an interesting career, Mr. Stanley relates, and sometimes an exciting one. Eight burglaries have occurred there in his four decades as owner. Four of them resulted in arrests, but police never did find the culprits connected with the others.

"But the thieves never got much anyway," Mr. Stanley says composedly.

Drops Rent Controls, City Has Law Reversed

ALLENTOWN, Pa. (AP)—Off went rent controls in this Eastern Pennsylvania city yesterday.

Back they came again just two hours later.

For months the City Council gathered data on the question of keeping rent controls. After many hearings and debates, the Council voted unanimously yesterday to lift them. This was done under a 1952 federal law which leaves the question to local governments.

About two hours later, Rep. Karl C. King (R-Pa.) was notified that federal authorities had classified the city as a critical defense area—and rent controls were to be restored.

Autumn And An Open Fire

The air is crisp, the sumacs and sassafras are red against the hillsides; yellow corn stands in shocks among the fields; the flight of birds is southward; the cider runs red from apples in the press and a blue haze curls from farmers' smokehouses where that incomparable country ham and bacon is in the making.

Fall is here and hundreds of city and suburban homes are laying in their store of seasoned wood against the time when an open fire will be burning in the grate.

It is a throwback to those days when open fires were indispensable for heating homes and cooking the family meals. Automatic furnaces now provide the heat with not so much as the lifting of a finger. Food cooks on gleaming stoves at the turning of a switch.

There is no practical need for the crackling logs on the hearth. They are there because in the hearts of modern men is a love for their cheery sights and sounds and the incomparably comforting smell of burning hardwood.

A wood fire is the most expensive form of heat for modern homes but it is an extravagance which enriches the senses and the soul. It is a return to the primitive and a delight known as far back as man has made fire his servant and his friend.

Our pioneer forefathers toasting their shins before a great fire on the mud hearth of their log cabins were only enjoying an experience loved by the ancients ages before them.

Centuries before Peter warmed himself by the fire in Pilate's courtyard on that most tragic night in all history Herodotus wrote in his "Life of Homer":

"When he arrived at the place when the Phrygians feasted, Homer paused on the threshold and recited these verses to his conductor while a fire was kindling in the hall:

"A man is proud of his children; a town of its battlements; a plain of its horses; the ocean of its navies; riches ornament the house; just judges, seated in the halls of justice, are a noble spectacle; but the most pleasing sight, in my opinion, is that of a burning fire on a day when the sun of Saturn decks the ground with snow and frost."

Ike Speaks As An Expert

When Gen. Eisenhower talks on military subjects he speaks with the authority of an expert for war and preparation for war have been his profession. It is therefore authoritative and welcome to the ears of taxpayers when he attacks waste and extravagance in the military establishment.

He rapped knuckles of the Pentagon brass, tramped on some military toes and left a lot of red faces but it is the kind of talk Americans like to hear.

The general cited specific cases in which taxpayers' money was thrown to the winds by the reckless spenders in Washington.

"Our defense program," he said "need not and must not push us steadily toward economic collapse."

These are the words of the man who probably knows our defense needs better than any other American. They are also the words of the man who, if elected, will be commander-in-chief and therefore in a position to do something about it.

His statement seems to paraphrase that of another great American into something like this:

"Billions for defense but not one cent for the wasters."

This is the kind of talk welcome to tax-weary Americans pushed into the shadow of economic ruin by the shameful extravagance of reckless little men in high places.

Little Lower Than The Angels

The vicar of Hurst Green, England, has refused to allow the figure of an angel to be erected over the grave of Kathleen Reese, 9.

Angels, he says, are a separate creation which man cannot attain. Such a figure, the vicar holds, would tend to bolster an erroneous belief that humans, even sweet little girls, can attain angelic status.

The people of Hurst Green have appealed to higher church authorities. Little Kathleen, they say, believed in angels and tried to be like them.

When a little girl emulates the angels there can't be too much difference between them. If an angel means a golden-haired creature with wings and a white robe there may be a difference. If it means a being endowed with goodness, innocence and liveliness then a little girl who believes in angels and tries to be like them is so little lower than the angels of divine creation that there probably is little distinction in the mind of either God or man.

Surely the world will be a better place if more children and adults as well set angels as the models toward which they strive. Whether there is a stone angel over little Kathleen's grave is of little importance. Whether there is something angelic in the lives of little children and their elders makes all the difference in the world both here and hereafter.

The Campaign

Candidates Now Should Concentrate On Issues

WASHINGTON

Now that Governor Stevenson and Senator Nixon have made a clean breast of it—and nobody is able with justification to impugn the motives of either one—maybe the candidates will concentrate on the important issues of the campaign.

Neither Senator Nixon nor Governor Stevenson profited or obtained any personal income from the private funds. Each had a set of donors who understood clearly in advance that they were performing a public service by contributing.

Dana Smith, who collected the funds for Senator Nixon's post-election campaign, had a distinct understanding in writing ahead of time with each of the donors he solicited that such contributions as they would make did not entitle them to any hold on the senator or any favors. He told them exactly what the money was to be spent for—expenses in connection with speeches, printing, postage, travel and greeting cards to the 20,000 workers who had been active in the campaign. The persons or businesses to whom the money was sent were printers, stationers, hotels and none of them knew or cared who the donors were.

SO FAR AS Governor Stevenson is concerned, the donors knew only that the money was going to be distributed by him and they didn't know the identity of the recipients. The governor says not one of the contributors had any idea that he was being obligated in any way to them and the public should take his word for it just as it should do when Senator Nixon says he never promised nor gave any special favors to any of the contributors. The truth is that out of the 76 contributors the senator didn't personally know more than 15 or 20.

There's no income tax problem so far as any of the donors are concerned because these were all gifts. Since all of the gifts were less than 3,000 each there is no requirement of law that they have to be reported on income tax returns. There is no income tax problem either for Senator Nixon or Governor Stevenson.

None of the money was received by the senator for the donors for any services rendered or to be rendered to such donors. Similarly Governor Stevenson doesn't have to report as income any of the gifts made to him for the state employees.

Now the Illinois state officials may have an income tax problem because the governor publicly says the money was used to "supplement" the salaries of those officials. Whether given in the form of Christmas bonuses or as other gifts during the year the fact remains that the money was given

for services rendered to the state government and the governor—the employer. Any worker who gets a bonus check at Christmas from his employer for services rendered must report this as income and pay taxes on it to the federal treasury.

But this is, at its worst, only a technical error and there are lots of these made during the course of the year by taxpayers generally on such fine points of the tax law and they are later adjusted and any extra tax promptly collected. It doesn't involve in the slightest any lack of integrity on the part of anyone—the donor or the recipient or the distributor of the funds.

WHAT IS REGRETTABLE about the whole Nixon-Stevenson controversy over the private funds is the celerity with which many people were ready to impugn the honesty and integrity of Senator Nixon or Governor Stevenson depending on whether they were in one political camp or the other. In this case also the "left wingers" who always cry out against "guilt by association" were quick over the radio and in the press to charge that there was a direct tie between the donors of the funds and Senator Nixon—the assumption being that a specific obligation of an immoral kind was created. There isn't a scintilla of evidence to prove it.

If it is morally wrong to contribute funds to a public man for political expenses after election, it is morally wrong to do so before election. Private funds to benefit a public man's political future after election may look wrong to some observers but private funds collected to help elect candidates in the first place are then in that sense also morally wrong.

Yet if there were no campaign contributions, only rich men could run for office and stay in office. Also, if a poor man were elected, a rich man could out him in a subsequent election. The only solution is either for government to finance campaigns which is impractical in some respects or else for the government to limit every single contributor to a maximum of ten dollars a year whether given before or after elections and forbid even the candidates for Congress and for the presidency and vice presidency to spend their own money for campaigns to get elected or reelected.

Political expenses are the public's business and control and limitation are plainly within the power of Congress to legislate upon if the American people insist on such reforms. It may take a little longer to collect ten dollar contributions and it might mean starting earlier than a campaign year or carrying on continuous drives by the two party organizations or by their supporters—but it can be done.

Health To You

By EDWIN P. JORDAN, M. D.

Polyneuritis Symptom Of Disease

A 28-year-old reader says that she had been troubled with a condition diagnosed as polyneuritis and wants to know if it is any kin to Parkinson's disease.

This reader's concern is readily understandable, but before discussing polyneuritis the question of its relationship to Parkinson's disease can be answered with a "no."

Polyneuritis is merely means inflammation of and pain in several nerves. Sometimes the condition gets worse as time goes on, though this is not inevitable. Quite often, the parts supplied by the affected nerves show weakness, wasting of the muscles, pain, tenderness and often changes in sensation or feeling.

Sometimes, the pain is severe, and once in a while the interference with sensation is so great that a pin can be stuck into the skin of the affected areas without being felt at all.

There are a host of possible causes. Most of the well-known, metals, such as mercury, bismuth, arsenic and lead are responsible in some cases. Vitamin deficiency diseases, particularly beriberi, which is a vitamin "B" deficiency, and pellagra may be at fault.

Polyneuritis sometimes develops from general dietary deficiencies during pregnancy and in the presence of such general diseases as diabetes or pernicious anemia. Chronic alcoholism can produce this condition.

Infections may also produce polyneuritis. Polyneuritis is a frequent symptom of so-called rheumatic infections. It may complicate typhoid fever, scarlet fever, influenza, mumps and almost any of the well-known infectious diseases.

Whether severe or mild, the cure of polyneuritis depends on finding the cause. If caused by a vitamin deficiency, for example, the proper remedy is to treat that error in the diet. When it complicates known infections, recovery generally takes place without special measures as the patient improves from the disease responsible.

Rest in bed is usually needed not only because of the muscular weakness, but also because the heart may become involved. Ser-

ious deformities can develop because of muscular weakness, if the limbs are not supported by splints, sandbags or other means.

The sufferers from polyneuritis are indeed to be pitied. The pain and the muscular weakness usually interfere with walking or with the use of the hands and arms, depending on where the trouble is located. Treatment usually requires great patience on the part of the patient and ingenuity on the part of the physician.

Uncle Ef Says

The way the campaigning is shaping up, it sounds like Truman and Stevenson against Eisenhower and Taft. People may forget who the vice presidential candidates are before one can be elected.

A barber in an Ohio town still charges 50 cents for a haircut. His customers get a cutting rather than a trimming.

SIDE GLANCES

"If it's true we learn by mistakes, you're learning very fast—judging by the spelling in this letter!"

"First I've Ever Heard Of THIS Invention!"

The Other Side

By GEORGE E. SOKOLSKY

Some time ago, I wrote an article describing a controversy between Roy Brewer, the Hollywood labor leader for whom I have great respect, and Congressmen Donald L. Jackson of California, whom I also respect as a hard-hitting member of the House committee on un-American activities.

I did not think, at that time, that what I said about their differences over how a communist-made picture should be handled would affect the Congressmen's campaign for re-election.

Mr. Jackson thinks that it has and has written to me setting forth his side of the controversy. As I should like to see Donald L. Jackson re-elected and would vote for him if I lived in his district, I am publishing the gist of his statement.

"With respect to the matter of union policing of the film industry, a very garbled version of my original statement has reached the public print, including your column in question. When the Associated Press asked me for a statement relative to the exclusion of such films as 'Encounter,' I agreed that legislation on the subject was very desirable. However, I pointed out that with the present philosophy in the saddle in Washington it was very doubtful whether or not such legislation could pass the Congress at this time.

Solely as an alternative measure I suggested that, perhaps, and pending the eventual passing of such legislation, the unions themselves could play a great part in assuring that the films in question did not show before American audiences.

"TO MY MIND this is the only immediate answer to such films as the one in question. In the normal course of events 'Encounter' will reach the American screen before the convening of the new Congress. There is no practical method by which legislation can be taken before next January. If the film and others like it are to be prevented from appearing on American screens it is quite obvious to me that the unions themselves must take a stand with respect to the matter.

"It is my hope that in fairness and justice you will see fit to correct the impression given in your column of September 12, indicating that I favor action outside the law in this connection. As you have carried on a fine and continuing battle against communists, goons and other parasitic growths on the body politic, I have attempted in a small way to play a like role in the legislative body of which I am a member. If the forces to which we are both opposed, and which constitute a common foe succeed in driving a wedge between those who are carrying on the battle we might as well give up the fight and acknowledge ourselves defeated."

This is a difficult time for all who write about political matters because every item is a brick that goes into the structure of election or defeat. I feel that Roy Brewer's effort to keep the communists out of Hollywood are particularly deserving of commendation because of its statesmanlike breadth.

On the other hand, both the Republican and Democratic members of the House committee on un-

American activities ought to be re-elected.

THIS COMMITTEE has been in existence nearly 15 years. It has been of outstanding service to the American people in its plodding way, examining thousands of witnesses and producing a mosaic of communist activities in this country. Three official agencies have been effective in this respect: The FBI, the House committee on un-American activities and the McCarran committee. The House committee has been particularly useful in this respect because it is a continuing body, building a permanent record. I have, for instance, a list, folio size, of 66 pages, showing the names of all those identified as communists in Hollywood before this committee. You may be sure that all who appear on this list and their friends will be after Jackson's scalp. Whenever the communists oppose an American, it is generally sound to support him.

The House committee on un-American activities consists of the following Democrats and Republicans, each one of which is a candidate for re-election this year: John S. Wood, of Georgia; Francis E. Walter, of Pennsylvania; Morgan M. Moulder, of Missouri; Clyde Doyle, of California; James B. Freizer Jr., of Tennessee; Harold H. Velde, of Illinois; Bernard W. Kearney, of New York; Donald L. Jackson, of California; Charles E. Potter, of Michigan.

Economic Picture

By SAM DAWSON

NEW YORK — Another very prosperous year coming up—that's the early-bird prediction today from three sources: A banker, an insurance company economist, and a government official.

Although their forecasts vary in details, they add up to that. In statements like those year-end pronouncements that industrial leaders usually unburden themselves of three months from now, these three men take a long look now.

The banker is the most cautious, C. Francis Cooke, president of the American Bankers Association, meeting today in Atlantic City, sees business brisk through next spring for sure. The Roanoke, Va., banker says there might be a gradual dropping off later in the year, if only a temporary one.

The government man is enthusiastic. Roger Putnam, administrator of the Economic Stabilization Agency, foresees good business and full employment all through 1953.

The insurance economist lays it on the line in full detail, stretching out figure fingers. Dr. Gordon W. McKinley, head of the staff of economists of the Prudential Insurance Co. of America, says this is what you can look forward to in 1953:

Business activity higher than in 1952; continued full employment; \$13 billion more dollars available for consumers to spend; prices leveling off and maybe dropping slightly.

And here is how the insurance economist thinks the picture will change in detail:

Business spending on plant and equipment will drop by four billion dollars next year to around 21 billion dollars.

People will spend about two billion dollars less on new homes next year than this. Private de-

mand for new homes will drop below 900,000; conversion of large housing units into smaller ones will come to about 20,000; a price decline in houses is unlikely.

Total business inventories will remain at the present level through 1953. Wholesale and retail inventories will hold fairly constant, but manufacturing inventories should level off next year and then start to decline.

Total savings will probably drop next year. He thinks liquid savings will be steady—bank deposits, cash, savings bonds, insurance policies. But he thinks there will be more installment buying.

One Man's Opinion

By WALTER KIERNAN

Ike and Adlai can rest for the next week or so unless they can hit with three on and a tie score in the ninth.

It is possible for a candidate to campaign during a World Series but he'd better be prepared to give the inning-by-inning score and the only promise we want from him is for fair weather.

Meanwhile, as the regular season comes to a close, some are still mulling over Clark Griffith's decision to bar TV for next year's home games but it should be clear that he followed government example.

Washington Senators don't mind being deceived on the road but at home they'd get nervous with all those people watching them.

And what's true of the elected senators is true of the contract Senators.

All I know about Griffith's Senators though is that it was no director of camera angle that put them in the second division.

Even if he thinks television didn't do his Senators any good it's not original... Kefauver figured that one out months ago.

Once Over

World Series First

"You may rise now! Remember to curtsy and back out of my presence slowly, with eyes on the floor!" the man said. "Never come into my presence again unless summoned by royal command."

"But," we began.

"Silence! One side! Out!" he snapped firmly.

"Who do you think you are?" we demanded.

"I know who I am," was the reply. "I am a Brooklyn baseball fan. Another salute, if you please! Mind your manners! No backtalk, var-let!"

"Why so chesty?" we asked.

"If you had waited as long as I have for this day you'd be chesty," the man said.

"You don't have to throw your weight around, do you?" we insisted.

"After all these years, who not? Brooklyn, I love you! Oh, what a beautiful morning, oh what a beautiful day! The world is mine! Justice marches on!" the man continued.

"There HAVE been greater world-shaking events than the entrance of Dem Bums into a World Series," we said.

"NAME ONE!" the man challenged.

"You've heard of Magna Charta," we suggested.

"He could be fooled with a knuckleball," said the man. "Them Dodgers find that kind, a dime a dozen. Brooklyn, you're wunnerful!"

"There have been other wonders of the world," we put in. "How about the Taj Mahal?"

"I'll take Jackie Robinson," he replied.

"What about the Hanging Gardens of Babylon and Yellowstone Park?"

"Gimme Ebbett's Field!" the man said. "Let Durocher play them other jerk places. Dressen for President! Let's have a 21-gun salute for Joe Black! On your knees, man, as I mention the hallowed name of Flatbush! Gangway! Hail to the chief!... Attaboy, Dressen!"

"Who do you think you are, Napoleon?" we stammered.

"What pennant did he ever win? To the Polo Grounds with that kind! Life can be beautiful! Eat, drink and be merry! Let there be music and laughter!"

"You talk as if the Bums' victory in the pennant race eclipsed all else. After all, there is a national election campaign on."

"Are they going ahead with that?" the man asked.

"Ike and Adlai seem so disposed," we said.

"Ike? Adlai?" the man said. "I don't see 'em in my starting line-up. If we're using 'em they must be a couple new pitchers from the Three-Eye League. You bore me! Depart! Head down! Out! I can see you are not from Brooklyn."

"How can you be sure?" we asked.

"You head is on straight," he snapped. "Also you show other traces of calm self-control and balance. You look to me like a man who has a sense of proportion, ya heel! You think other cities than Brooklyn matter much at a time like this. You could even be subversive!"

—

"MRS. CONSUELO Vanderbilt Balsan, former Duchess of Marlborough, speaks bitterly of her mother and her first husband in 'The Glitter and the Gold,' drawing a picture of a child forced into marrying the Duke for a title by an extra hard and domineering mommer... And she shows up some pretty ignorant ladies in the British upper circles of the period, one great lady going through life in the belief the Civil War was between the United States and South America... The photos of Winston Churchill, showing him as a handsome young blade with a shock of hair and the figure of a matinee idol, are mighty interesting... 'Break up the Dodgers!'... A World Series at Ebbett's Field?... This is preserving world peace! Elmer Twitchell says that Marciano, Nixon and Dem Bums all won their fights the same week... It's hard to think of Charlie Chaplin's mustache, derby, baggy pants and walking stick as subversive... Harry Truman bought an oil painting the other day, a Dutch scene by an unknown painter... For his railroad stump-speech tour, we would have suggested a Whistler... Mr. Truman bought the painting for 20 by 35 inches to fit a certain wall space... Probably throwing out the old portrait of General Eisenhower."

Business, Professional Women Hear Talk By Miss Mary Quinn

"Ohio Women of Distinction" was the topic of Miss Mary Quinn of Cleveland, public relations supervisor for the Ohio Bell Telephone Co., at the dinner meeting of the Salem Business and Professional Women's Club Monday evening in the Elks home.

Miss Quinn's topic helped illustrate "Ramparts We Build," which is the theme of National Business Women's week observed by B. & P.W. members through this week.

Miss Quinn, an interesting speaker, was introduced by Miss Josephine Rose, education and vocation chairman of the club. The Cleveland woman pointed out how Ohio Women have gained fame and fortune in all fields of endeavor.

Among the names of women famous in literature are Harriet Beecher Stowe whose, "Uncle Tom's Cabin" is said to have hastened the Civil War, and Martha Finley's "Elsa Dinsmore" books set a pattern for decent reading, the speaker declared.

In drama Miss Quinn pointed to the accomplishments of Lillian and Dorothy Gish and Agnes Moorehead, Ohio actresses.

THE ONLY WOMAN to receive the congressional medal of honor was Ohioan Dr. Mary Walker, who made a name for herself as a doctor during the Civil War. Judge Florence Allen of Cleveland brought distinction to her sex by being the first woman to sit on the bench in the U.S. Circuit Court of Appeals.

Operators of blast furnaces, suffragettes, 4-H club members, river boat pilots and industrial tycoons were in overall picture Miss Quinn painted of the position women hold in Ohio. Using the telephone industry as an example she told how women have revolutionized industry. Only under the free enterprise system that the United States possesses could women achieve distinction, the speaker concluded.

On the committee for National Business Women's Week are Mrs. Frieda Pelley, Miss Rose, Mrs. Ned Massa, Mrs. Mary Noff and

Miss Mary Jane Dalrymple Wed To George Lee Morrow

Rev. S. D. Myers, pastor of the Washingtonville Trinity Lutheran Church, heard Miss Mary Jane Dalrymple and George Lee Morrow pledge their vows in the double-ring ceremony performed Sunday at 2:30 p.m. in the church sanctuary.

Many friends and relatives witnessed the wedding of the daughter of Mr. and Mrs. William Dalrymple and the son of Mr. and Mrs. George W. Morrow, all of Washingtonville. White gladioli and carnations marked the aisle down which Mr. Dalrymple escorted his daughter to the altar.

An arrangement of palms, ivy and beauty baskets of white gladioli and white carnations was centered by a cross at the altar, and tapers in seven-branch candelabra lighted the setting.

Miss De Eria Smith, soloists, sang "O Promise Me," "At Dawning" and "The Lord's Prayer." Mrs. Emil Guchemard, organist, played the nuptial melodies and the traditional marches to herald the bridal party.

Massillon Leads Grid Ratings; East Liverpool Ranks Third

Springfield Holds Second; Alliance Drops To Ninth

By FRITZ HOWELL

COLUMBUS, O. (AP)—Massillon's terrific Tigers retained the state high school football leadership today, but the big pigskin news is the individual scoring race between a couple of Southern Ohio stars.

Carl Smith, 190-pound Washington Court House halfback, grabbed the state-wide lead over the weekend with a three-game total of 98 points, two ahead of Chauncey-Dover's Hubert Bobo.

Bobo, another 190-pound senior, led the scholastic brigade last year with 271 points. He picked up 14 points in Friday's 32-7 win over Wahama, W. Va., to stretch Chauncey's victory string to 14 and his point total to 91.

But Smith maintained his five-touchdown-per-game pace through the third straight contest, an 81-0 win over Monroe, and booted three extra points to ease past Bobo into the top spot.

Massillon and Springfield continued their two-team scrap for the top spot in the weekly Associated Press poll, but East Liverpool and Zanesville moved around Dayton Chaminade and Alliance into the third and fourth spots as 33 sports writers cast votes.

Massillon stormed over Steubenville's Big Red, 46-13, and Springfield was a 40-6 victor over Portsmouth, as both winners' goals were crossed for the first time. Alliance was a 27-26 victim of Mansfield's once-beaten Tygers. Both Mansfield and Alliance, despite defeats, won places in the top 10 ratings.

From here and there:

Tom Watson's Urbana team is making a habit of wrecking unbeaten records—the latest a 27-7 win over Delaware Willis which had won 11 in a row . . . Portsmouth fumbled four times against Springfield and the 'Cats turned 'em into four touchdowns . . . Eddie Mack, one of last year's Class B stars with London, scored all 27 points in Mansfield's win over Alliance.

Leonard Dawson, Alliance's fine signal-caller, has completed 35 of 53 passes for 597 yards in three games . . . Cincinnati Purcell has won three straight and its goal line is uncrossed . . . Findlay defeated Bowling Green for its first grid victory since November of 1950, with 119-pound five-foot three-inch fullback (smallest in the state) Ray Siferd scoring both Findlay touchdowns for a 16-14 conquest.

Washington Rural of West Portsmouth made it 18 in a row with a 7-0 win over Coal Grove . . . Winterville, beaten only once in four seasons, reached the 20-victory mark by a 15-0 win over Wells.

Others: Cleveland Benedictine 55, Sandusky (1) 44, Cincinnati Purcell (1) 35, Lancaster 26, Warren 25, Urbana, 19, Columbus East 18, Bellaire 16, Columbus West 13, Youngstown East (1) 13, Cleveland Collinwood 13, Lorain 8, Fremont 8, Toledo Woodward 7, Winterville 7, Youngstown Ursuline 7, Toledo Central 5, Cuyahoga Falls 5, Marion 5, Logan 4, Lima Central 4, Barborton 3, Toledo Clay 3, Cincinnati Woodward 3, Canton Lehman 3, Hillsboro 2, Columbus St. Charles 2, Akron Central 2, Fairborn 2, Chauncey-Dover 2, Canton Lincoln 2, Toledo Devilbiss 1, Steubenville 1, Portsmouth 1, Dayton Dunbar 1, Canton McKinley 1, Ashland 1, Philo 1.

Massillon hasn't been shut out in the last 38 games, Alliance turning the trick in 1948 . . . Five sophomores and juniors scored touchdowns in Fremont Ross' 58-20 win over Fostoria . . . 200-pound Jim Mitchell of Clyde went 95 yards on an end-around play in the 38-7 win over Genoa . . . Jude Theibert starred against for Sandusky in the 14-2 victory over Toledo Scott, running 18 yards for one score and

passing for the other . . . East Liverpool and Sandusky, both red hot, meet Friday.

John Piehovich of Bellaire's unbeaten club is being touted as the best offensive-defensive end in that sector of the state . . . Toledo Woodward gained only 60 yards from scrimmage, but intercepted two passes to defeat Waite 14-6, first time in 10 years the Polar Bears have turned the trick . . . Benny Bunch scored for Steubenville against Massillon to put the Tigers behind for the first time this year, but Chuck Mather's crew made it a runaway over the No. 2 club of 1951 as John Traylor and Lee Nussbaum each scored three times, four of the six coming on runs of from 32 to 74 yards.

Dave Kimmel of Youngstown Ursuline only played briefly in the 39-13 win over Youngstown Rayen, but gained more than 100 yards rushing and scored three times . . . Clair Williams, East Liverpool's 144-pound threat, scored three touchdowns in 12 tries in the 48-6 conquest of New Philadelphia.

Washington Court House has outscored three opponents 178 to 13, Massillon is ahead 133 to 13, Springfield 106 to 6, and Zanesville 124 to 35.

Black, Reynolds Open World Series Action

By GAYLE TALBOT

NEW YORK (AP)—The pitchless wonders of Brooklyn have put squarely up to their wonderful rookie reliever, Joe Black, to get them off on the right foot against the favored Yankees in the World Series opener tomorrow at Ebbets Field.

Never before in big league history has a champion of either circuit been forced to undertake such a desperate gamble. Other rookies have been called upon in the important first game, and there have been bullpen specialists before. But the combination of the two,

Georgia Tech Possesses Pepper Platoon

ATLANTA (AP)—Football fans may not like the two platoon system, but Atlanta fans think there's nothing like Georgia Tech's "pepper platoon."

The pepper platoon is the hottest thing at Tech.

Franklin (Pepper) Rodgers—an unathletic looking, generally ineffective, homegrown, third string quarterback is captain, signal caller, holler guy and field general of the platoon.

Tech's unbeaten team—the Orange Bowl champion—usually looks great, but when Pepper swings his leg, Tech looks better than ever.

Tech is unbeaten and untied today because of Pepper. Tech won the Miami Bowl game New Years Day largely because of Pepper. Tech had an unbeaten 1951 season largely because of Pepper.

And all he did was boot the ball.

In Tech's last three games Pepper has kicked three field goals and two of them at vital times gave Tech the victory margin in place of 14-11 ties. The last one was Saturday against Florida. The first of the three was in the Orange Bowl against Baylor.

Rodgers kicks his field goals and conversions behind his own team—a platoon called Pepper's by everyone at Tech. Furthermore, when the kick is successful, and it usually is, he signals his own kick just like the referee.

Bobby Dodd, Tech coach, puts it like this: "The tougher the situation the better Pepper seems to be. He thrives on pressure."

"There may be many better kickers than Pepper but the thing about Rodgers is that he kicks them when you have to have those points."

Mantle Picked As Possible Series Star

NEW YORK (AP)—Who will be the outstanding star in the 1952 World Series?

Jackie Robinson? Peeewe Reese? Joe Black? Phil Rizzuto? Yogi Berra? Allie Reynolds?

The writer's selection is Mickey Mantle, the ever-improving New York Yankee sophomore star who has done a fine job filling the shoes of the great Joe DiMaggio in center field.

The Yankees have had a monopoly on World Series stars during the past few years for obvious reasons. The first is that they've been the American League representative in all but one year since 1947. The other is that they've won the world championship each time.

Rizzuto was acclaimed the series' outstanding star last October for his sterling work at shortstop. Gerry Coleman, the Yankees' fine second baseman, won the honors in 1950 for his brilliant defensive play and timely hitting. Reynolds was chosen in '49 for his superb work on the mound.

Mantle may become the fourth straight Yankee to win the honor this year. The Oklahoma strong boy has improved at such a rapid pace during the summer that he developed into one of the most feared batsmen in the American League. During the September stretch drive Mantle was a one-man destruction gang with his bat, clubbing at a .375 pace to bring his batting average up to .311, tops on the Yankee team.

Will Double Value
NEW YORK (AP)—The Wood Memorial, major eastern prep for the Kentucky Derby, will be doubled

Both teams were rested and in robust health. The only question was whether Gene Woodling, the Yanks' leading clubber, would be ready to start the opener and hit in the cleanup spot. He has had a pain in his groin lately, but said it felt much improved. If Gene decides to sit it out, Stengel will have to move catcher Yogi Berra up from fifth to fourth in his batting order.

West Virginia University football players believe Jack Rabbits, a halfback, is the fastest man on the squad.

Dissension Reported Among Los Angeles Coaching Staff

LOS ANGELES (AP)—The Los Angeles Rams, the idol and exasperation of their faithful followers, sought to extricate themselves from a serious dilemma today.

There's trouble in the coaching staff. It may extend into the ranks of the players, champions of the National Football League last year.

Head Coach Joe Stydahar said there is dissension between himself and his less known backfield assistant, Hampton Pool.

Stydahar, who has suffered through four straight losses, is slated to sit down with President Dan Reeves today.

The outcome may have direct bearing on the National League title race.

Unless Reeves, the principal stockholder in the club, can iron out the differences, it appeared that either Jumbo Joe or Pool, or possibly both, might leave the club. Unofficial sources indicated Stydahar will be the one to go.

Oddly enough, in a hullabaloo that started immediately after the Rams' loss in a vital league game to Cleveland Sunday, and filled the sports pages with columns of print all day Monday, Pool declared:

"It's all news to me. I wasn't aware of any dissension." Stydahar denied he had offered to resign. He said he told Reeves in Cleveland that changes must be made if the Rams are to get anywhere this season.

Reeves said Hoe had offered to resign.

Skippin' Around

By SKIP GREENISEN

Salem's Saturday night game against Canton Timken will give Salem fans the chance to watch two games for the price of one.

Canton Lehman's Polar Bears will engage Akron West in the first of a doubleheader at 6:30 and the Quakers will encounter the Trojans in the 8:45 contest.

The Quakers will be looking for their third straight victory over the Timken eleven, having edged them last season, 25-20, and in 1950, 26-6. The two teams have engaged in just five games, Coach Ben Barrett's crew losing in the 1949 season, 20-14, in a contest played at Reilly Stadium.

Two Salem opponents, Bellaire and East Liverpool, are still with unblemished records while the Lisbon Blue Devils, the Quakers' last opponent, have

1948	13	7
1949	14	20
1950	26	6
1951	25	20

Salem won 4, lost 1

two victories to their credit along with a deadlock.

Bellaire holds triumphs over the Quakers, Triadelphia, and Cleveland Garfield Heights while the Potter are boasting wins over Cleveland West, Steubenville and New Philadelphia.

Coach Bud Buchers eleven weren't able to score more than six points against Poland last Friday but they kept the Bulldogs to six points and the teams ended in a 6-all tie. They hold wins over Cleveland Brooklyn and Minerva.

The word from Lisbon is that they once against expect to roll over the Quakers by a good margin. The Buchermen are anxiously awaiting the Nov. 14 contest.

Four other Salem opponents took their initial defeats over the weekend. Canton Lincoln was the victim of Lehman's 14-13 victory last Friday night; Wellsville dropped its first tilt to Winterville, 15-0; Canton McKinley ousted Timken, 19-12, in Fawcett Stadium; and Ravenna was shellacked by Akron St. Vincent, 41-13.

The other two opponents were Newton Falls, who edged East Palestine, 19-13, and Youngstown South, who deadlocked with Woodrow Wilson, 7-all.

Salem opponents in three games have totaled 65 points but each outing the Quakers have cut the foe total. Bellaire managed 44 markers against the locals but Ravenna was held to 13 points and Chaney could score only eight last week.

However, Salem's scoring has been on the down grade, too. Twelve points were scored against Bellaire, seven on the Ravens and six against the Chaney eleven.

Four backfield men of the Quakers have accounted for the local's four touchdowns. Nelson Mellinger and Bill Crookston crossed the goal line in the initial contest. George Mordew scored the lone TD against the Ravens and Quarterback Joe Hrovatic went over for the Quakers against Chaney.

The Browns got off to a fine start Sunday afternoon in Municipal Stadium with their 37-7 victory over the Los Angeles Rams, avenging the defeat which they absorbed last December in the title game on the West Coast.

Los Angeles didn't give the impression of champions in the 60-minute contest since their two quarterbacks, Bob Waterfield and Norm Van Brocklin, didn't hit their pass receivers with any great accuracy. The running attack of the Rams was their best offense but fumbles and lack of power at the most needed time kept them in their own territory most of the afternoon.

East Liverpool's Potters climbed two steps of the Associated Press football ratings ladder over the weekend, moving from fifth to third. Massillon, of course, continues to lead to pack of Ohio High School teams while the south's Springfield holds second place this week.

The Alliance Aviators, led by Quarterback Leonard Dawson, dropped five runs on the ladder to ninth position following their single point loss to Mansfield last Friday, 27-26.

Three Athletics Sign '53 Baseball Contracts

PHILADELPHIA (AP)—Less than 24 hours after the 1952 major league season ended, three pitchers and a second baseman signed 1953 contracts with the Philadelphia Athletics, who finished fourth in the American loop this year.

The pitchers who signed Monday were Walter Kellner, brother of a southpaw on the A's pitching staff, Bobo Newsome and Harry Byrd. Cass Michaels is the second baseman.

Al Matthews, San Jose State half-back, gained 2,964 yards in two years of junior college football at Monterey, Calif.

Michigan State Leads Colleges

Rated No. 1 Team; Illinois Second

By WILL GRIMSLEY

NEW YORK (AP)—Resourceful Michigan State was a solid choice as the No. 1 college football team in the country today in The Associated Press' first weekly poll.

Sports writers and broadcasters, who in a pre-season sampling of opinion named the Spartans as the best bet to win the national championship, apparently were further convinced by State's 27-13 comeback victory over Michigan last Saturday.

They gave the Spartans 52 of the 83 first place votes cast and an impressive total of 752 points, nearly twice that of the No. 2 team, Illinois.

Point totals are arrived at by awarding 10 for a first place vote, nine for second, etc.

No other team got more than seven No. 1 votes, this number going to Maryland's Sugar Bowl champions, who gained third place on close-squeak triumphs over Missouri and Auburn.

California was named fourth, without a single first-place vote but with strong runner-up support, and Texas, winner over Louisiana State and North Carolina, was fifth with only five votes for top.

Completing the top 10, in order, were Georgia Tech, Southern California, Wisconsin, Kansas and Duke.

It is interesting that, in addition to Michigan State on top of the pile, five other teams picked in the pre-season poll pulled down places on the first weekly show of strength. These were Maryland, Georgia Tech, Illinois, Wisconsin and California.

The top 10 in The Associated Press' first football poll (points based on 10 for first, nine for second, etc., with first-place votes in parentheses):

1. Michigan State (52)	752
2. Illinois (4)	752
3. Maryland (7)	353
4. California	371
5. Texas (5)	365
6. Georgia Tech	342
7. Southern California (5)	297

Baugh Ejected But Redskins Win, 23-7

CHICAGO (AP)—The Washington Redskins' 28-year-old player-coach, Sammy Baugh, was tossed out of the game Monday night but not before he had completed 11 consecutive passes to inspire his team to a 23-7 National Football League victory over the Chicago Cardinals.

The upset win, before 17,800 fans in Comiskey Park, opened league play for both teams and marked Washington's first triumph after five exhibition defeats.

Baugh and Don Joyce, a 250-pound second-year tackle from Tulane, exchanged blows after a pile up in the fourth period. Both were ejected.

It was the first time in the pro career of the usually calm Baugh—starting his 16th season with the Redskins—that he had been banished from a game.

Baugh tried 11 passes and completed all of them in the first half. Two of them went for touchdowns.

Sellout Predicted For Gavilan-Graham Fight

HAVANA, Cuba (AP)—A sellout was predicted today for the Kid Gavilan-Billy Graham welterweight championship fight here Oct. 4.

Dr. Lorenzo Nodarse, government sports director, said: "We have more than 40,000 in cash on hand for tickets already, and it looks as if the 45,000 seats we are planning will not be enough."

He said there will be no television of the fight in the United States, because "they would have had to station a ship about midway to Miami to relay the signal. I was told, and the whole operation would cost about \$60,000."

Women Rolls Sixth 700 Bowling Series

INDIANAPOLIS (AP)—Mrs. Pat Dryer, long one of Indianapolis' top bowlers, today claimed to be the first American woman to bowl a 700 series six times.

Her sixth was a 704 Monday night on games of 235, 200, and 269. She made the score with the Morris Plan team at the Pennsylvania Alleys.

Mrs. Dryer said Catherine Buhling, Cincinnati, has rolled five 600 series.

Sour Dreams

By HAL BOYLE

NEW YORK (AP)—Why doesn't some kind-hearted scientist invent a pill or magic potion to create pleasant dreams?

This is one of the world's great needs.

Life is such a living nightmare to millions today that they deserve and need peace in their sleep. But too often the goblins that infest their waking hours haunt their night minds, too, in even more magnified and fearful form.

It simply isn't fair. The quest for an elixir of youth may be doomed to failure, but science ought to be able to stow up a brew

that will at least keep us young, happy and free of wars for the eight hours of slumber. If we all could stroll at ease in a Garden of Eden while asleep, it would be easier to face the troubles of the day. As it is now we often merely close our eyes on one set of terrors, and doze off only to face another set even worse.

Consciousness is a two-sided coin—waking and sleeping—and is marked by fantasy in both periods. A man has some control of his dreams while he is awake. If the boss bawls him out, his mind immediately creates an interior drama in which he himself becomes head of the corporation and the boss becomes a janitor.

Every bum is a hero in his waking fantasies and walks his brain a king. But once he drowns off his conscience remorselessly takes over and makes him a bigger bum. It is only a legend that bums have happy dreams; they are even shabbier in their nightmares.

That is the trouble with dreams asleep: You have no control over them. Only a man with insomnia can be sure of remaining a hero in his fantasies after midnight.

Even dogs and innocent children are harried by bad dreams.

The other night a friend of mine was startled by the crying of his 6-year-old daughter. When he went to comfort her, she said:

"Daddy, I dreamed I was in a boat with two men. They were rowing around in the water picking up pieces of paper, and every piece of paper was where a little boy had died."

Why should a child have such an inexplicable nightmare?

Presentiments of death and disaster come to all of us at times and gloom our slumber for no reason that we know. Sleep—which Shakespeare called the balm of hurt minds and sore nature's bath—then is neither balm nor balm, but a cold shower of terror, from which we rouse sweating.

Mankind's three most common dreams are these:

1. A shy person finds himself naked in a jeering crowd.
2. You suddenly find yourself able to float or fly with the greatest ease.
3. You go along picking up a long row of dimes, quarters and half dollars on a sidewalk.

My trouble is that I have all these dreams at once. I am soaring along without my trousers on vainly reaching down trying to grab coins from the sidewalk until all at once I crash—and wake up on the floor, poor as ever and nursing a bruised elbow.

What I want is for science to come up with a capsule to create a shining world of dream in which no man is bald, he wears a new \$150 suit with his pockets full of gold pieces, all women are fair, politicians are speechless, and income tax collectors intrude only to blow a bugle that announces a big refund.

Why should a capsule like that be harder to make than an atom bomb?

After four months' duty with the Sixth Fleet in the Mediterranean area, the submarine USS Burrfish has returned to the United States. Serving aboard her is Robert V. Hurd, seaman, USN, son of Mrs. Elaine Hurd of Thompson Hall of Lisbon.

Mr. and Mrs. George W. Van Fossan of RD 2, Leetonia, talked to their son, Corporal Ralph Van Fossan, by telephone Wednesday in Japan.

The youth, a veteran of the Korean War, has been stationed in Japan for the past eight months. He has been overseas for about two years.

William & Mary Back On UC Slate Next Year

CINCINNATI (AP)—The director of athletics at the University of Cincinnati, M. Charles Mileham, said Monday William and Mary would return to the UC football schedule next year.

The game, to be played here, would mark the second meeting between the schools. The Indians won a 20-14 decision at Williamsburg, Va., two years ago.

The Names The Same, But He's Not Running

Aboard Truman Train (AP)—Adlai Stevenson boarded President Truman's campaign special for a moment at Stanley, N.D.

He was dressed as usual—in a beaded buckskin suit and headress of feathers.

Adlai is an Indian, a one-time scout for the Gros Ventre tribe. He's believed to be somewhere between 81 and 86 years old. He supposedly got his English language name when the grandfather of the present Democratic candidate for President, also named Adlai Stevenson, was vice president under Grover Cleveland.

Russian Help In Korea Told

They're Giving Aid
In Rear Area, Claim

SEOUL, (U)—A highly placed U. S. Eighth Army officer said today there are several thousand Russian troops in rear areas of North Korea serving in a "support capacity."

This officer said in an interview that the Russians were technicians and advisors and probably manned modern radar-controlled anti-aircraft guns manufactured in the Soviet Union.

The officer cannot be identified but he holds a responsible post that qualified him to speak authoritatively.

He conceded some of those reported to be Russians could be East Europeans from Soviet satellite countries.

The officers described the anti-aircraft batteries at Red airfields south of the big Antung bases in Manchuria as modern stuff. He added that because available evidence has shown them to be manned by Caucasians it was assumed Russians were at the guns.

His statements went much farther than those of a North Korean officer who surrendered through the Panmunjom neutral zone early this month. The Communist lieutenant, who was security officer at the armistice site, said last Saturday he had seen about 20 Russians at the Sinuiju airfield in June, 1951. The airfield is in North Korea at the Manchuria border.

continued, "he said he saw no reason why Russia and the United States would not remain the closest possible friends."

Truman quoted Eisenhower as having told a congressional committee in November of 1945:

"There is no one thing that guides the policy of Russia more today than to keep friendship with the United States."

Truman then went on to say of his own former Army chief of staff:

"His foresight was not nearly as good as his hindsight."

"Of course, we can all make mistakes, but the Republican candidate was the commanding general in Europe and was in close contact with the Russians. His advice carried great weight and it therefore did a great deal of harm."

It is true, the President continued, that "we were all trying immediately after the war to find a means for living with the Russians on a peaceful basis."

hower a topical sendoff for an 8,000-mile campaign tour opening today at Columbia.

Gov. James F. Byrnes of South Carolina will introduce the general, Byrnes, a lifelong Democrat and holder of high offices at the hands of the party, has announced he will vote for Eisenhower.

Development of the Communist issue could push into the background in Eisenhower's Columbia speech the touchy civil rights issue on which Byrnes left the national party by saying he would not support Stevenson.

Will Fly To Cleveland
After his one-shot invasion of Dixie at Columbia, Eisenhower planned to fly to Cleveland tonight to join his campaign train for some rest before he begins an arduous whistle-stopping foray with an early morning speech at Bay City, Mich.

Possibly in anticipation of this intensive campaigning, the general spent an hour and a half here last night talking with Gov. Thomas E. Dewey of New York.

Dewey, a native of Michigan,

said they talked only about how to bring New York into the Republican column on Nov. 4. But all of the politicians who professed to accept that at face value figuratively were standing on their heads at the time.

zies. The problem of corruption and graft in the simplest form is a problem of individual morals, public and private.

"Behind every crooked tax collector is a crooked tax payer."

He praised Democratic Sens. Estes Kefauver of Tennessee, Paul Douglas of Illinois and William Fulbright of Arkansas and Reps. Frank L. Chelf of Kentucky and Cecil R. King of California. He said they all "have distinguished themselves in the fight against evil in and out of government."

On the issue of communism in this country, he said that "I don't believe oaths and affidavits are much good, because a real Communist does not hesitate to lie."

"Close screening of government employees and the quiet, professional work of the FBI is the best way to turn over every stone in this country and see what lies beneath," he added.

Dr. Harris To Head Lisbon Chest Drive

LISBON—Dr. Seward Harris, a retired physician, has been selected to head the Lisbon annual Community Chest fund campaign, succeeding Attorney Richard Kennedy.

Community Chest leaders will meet tonight at 8 in the village hall to make plans for the campaign. Agencies who plan to participate will submit their fund requests tonight.

Last year's drive netted \$5,100.

FINED IN LISBON
LISBON—Harry L. Dinsmore of East Liverpool was fined \$10 and costs after pleading guilty to a charge of making an improper left turn at a hearing Monday before Mayor Wilbur Warren.

He was cited Sunday afternoon by State Highway Patrolmen after a collision on Route 30 near Cannons Mills.

happening this year took place in 1908, when William Howard Taft was the candidate to succeed Theodore Roosevelt.

The Taft-Roosevelt teamwork against William Jennings Bryan, the Democratic nominee, is made clear in the latest volume of "The Letters of Theodore Roosevelt," edited by Elting L. Morrison and recently published by the Harvard University Press.

T. R. helped win the Republican nomination for Taft, dictated the party platform, and then waged a campaign of open letters in support of his man.

Roosevelt made no speeches for Taft, however, saying that in his judgment "it would do harm, rather than good."

Enemy Clever, He States
"We have to assume that our enemies are as clever as we are and that they will succeed from time to time."

Gen. Smith was summoned to the deposition hearing by Sen. Benton (D-Conn.), who wanted him to testify about a speech Sen. McCarthy (-Wis) made in the Senate last year attacking the record of Gen. George C. Marshall, wartime Army chief of staff and later secretary of state.

Teachers Given Credit For Workshop Studies

County School Superintendent James L. McBride said Kent State University will grant credits to teachers participating in county workshop.

County teachers will select the subject to be studied and Kent State will furnish instructors. The workshops will be held once every two weeks for a total of 24 weeks. Teachers will receive credit of three semester hours.

One course in audio-visual aids in elementary education is already planned by the school, McBride said.

Election Schools Are Scheduled

Schools of instruction to explain Ohio's office type ballot, to be used at the Nov. 4 election, will be held at 8 p.m. tomorrow, Oct. 8 and 15 in East Liverpool Lisbon and Salem, respectively. The Columbiana County Board of Elections has announced.

The Salem meeting will be held in the Memorial Building and is planned for workers in Salem, East Palestine, Leetonia, Columbiana, New Waterford and Washingtonville, and for Butler, Fairfield, Knox, Perry, Salem and Unity townships.
